“A GOURMET MEAL WITHOUT A GLASS OF WINE JUST SEEMS TRAGIC TO ME SOMEHOW.” – KATHY MATTEA

We proudly present the Life's Kitchen Wine List 2025

This list is one of evolution not revolution from the 2024 list, with minimal changes made to the composition of our ever-popular “fixed price” packages enabling us to hold the 2024 price of our fixed-price packages through the whole of 2025. We are acutely conscious of the price pressures faced by us all currently and have striven to offer value wherever possible in this list.

Elsewhere on the list you'll find a range of new lines for 2025 including a superb white Burgundy from Domaine Fichet, and a delicious new Motagne St. Emilion Bordeaux Red from Château Treytins. We are also delighted to list a gorgeous Provence Rosé from Château L'Escarelle – Summer in a glass!

The vast majority of our wine is bought to be consumed as an accompaniment to the outstanding range of food served by the talented Chefs at Life's Kitchen. We'll always strive to seek out some fascinating examples of new and old-world wine that complement our menus, whether you are attending a banquet with hundreds of fellow diners or dinner for ten.

We hope you enjoy these wines as much as we do. We do have a separate fine wine list available on request.

All prices listed are per bottle and exclude VAT

FIXED PRICE DRINKS PACKAGES

Our ever-popular fixed price drinks packages are ideal for larger banquets, Livery functions and for those clients working to a fixed budget.

These packages are priced on the basis of fixed consumption levels of one glass and one top up of reception drinks, half a bottle of wine per person served through the meal and a glass of port. Iced water is also provided with the meal as part of those packages that do not include mineral water.

Through diligent work with our supplier base and by introducing minimal change to these packages we have been able to hold the 2024 price for each of these packages in 2025.....no mean feat in these expensive times.

We do offer a variety of flexible ways to give the option to increase consumption levels during an event, and will work with you to create the package that best suits the needs of your function.
